

World's 1st EU
food-contact compliant
**NYLON
SCRAPER**
in 5 colours!

Why Just Scrape by?

Improve your plant's hygiene with the
Vikan Scraper Family.

Where Vikan Scrapers can help

Hot or cold, large or small, hard or soft, close by or far away.
The Vikan Scraper Family meets ALL your scraper cleaning needs.

NYLON SCRAPERS

Hot surfaces

Hot surfaces can be difficult to scrape clean. Metal scrapers can scratch sensitive surfaces or even cause sparks. Polypropylene scrapers can't tolerate prolonged contact with high temperatures. Available in 5 colours and food-contact compliant, our nylon scrapers do the job perfectly every time.

STAINLESS STEEL SCRAPERS

Tough soils

With some soils, only steel will do the job. Our selection of handheld and extendable stainless steel scrapers can handle even the toughest soils, with rounded blade corners protecting surfaces from scratching.

LARGE STAINLESS STEEL SCRAPERS

Large areas

Scraping soils from floors, walls and other large surfaces can be time-consuming and tedious work. Our large stainless steel scrapers help you cover more ground faster, while providing the perfect balance of strength and flexibility.

POLYPROPYLENE SCRAPERS

Sensitive surfaces

There are many surfaces in food and beverage production facilities that shouldn't be cleaned with steel scrapers. Our Polypropylene scrapers are tough on soils, but go easy on surfaces that steel can scratch or otherwise damage.

HANDLES

Distant areas

Bending down to scrape soils from floors and climbing to reach overhead surfaces is bothersome and potentially dangerous. Vikan threaded handles make this work easier and safer. And they fit all Vikan scrapers with threaded handles.

NYLON SCRAPERS

Clean hot surfaces easily and effectively

The world's only EU food-contact compliant nylon scraper available in 5 colours
